The Economy:

Even as the global economy struggled to balance growth and inflation, India continued its forward march, driven by strategic initiatives and resilient domestic demand. Surpassing major economies, India was recognized by the IMF as the fastest-growing major economy, with an expected growth rate of 6.8% for Financial Year 2024-25. Strong balance sheets, normalized supply chains, and business confidence bolstered India's economic outlook.

India's foreign exchange reserves reached a record USD 645.6 billion as of March 29, 2024. The job market saw a 214% surge in listed vacancies, reaching 1.09 crore in 2023-24. Efforts to enhance niche manufacturing and infrastructure indicate potential growth, as manufacturing accounts for only 17% of GDP.

While challenges like subdued private consumption growth, uneven growth across sectors, global geopolitical tensions and slowing external demand exist, policy continuity, infrastructure focus, and supply chain diversification equip India to sustain its robust economic performance.

The Markets:

The Indian equity market surged in 2023-24, cementing India as a top investment destination with a market capitalization surpassing USD 4 trillion, making it the fifth-largest market globally. The Sensex and Nifty50 indices gained 24.85% and 28.61%, respectively.

Foreign Portfolio Investors (FPIs) became net buyers, investing Rs. 2.04 trillion (USD 24.46 billion) from April 2023 to March 2024, the second-largest FPI investment since 2020-21. Domestic mutual fund AUM exceeded Rs. 40 trillion in March 2024, reflecting strong retail participation. The estimated 7% growth rate and strategic budget allocations for housing, employment, and skill development are expected to bolster the market further.

So, so many hassle is going on for all the servers I have received so many calls sir today, how to login, how to login from where to login. So just see to it that this should not happen again in next year. Chairman sir, as Previously said by my speaker, Smita and Bharat that please have a physical meeting. I totally agree with them because see if you can have a physical meeting of your board of directors in this AGM which I can see just now, why can't we have a physical meeting of shareholders? It is our fundamental rights sir, to meet you and greet you once in a year. So, please take a note of this and have a physical meeting. Those who want VC meetings, they can sit at home and enjoy the meeting via vibrate hybrid mode. Secondly, Sir, I have requested for a physical copy of annual report, which I think CS team has forgotten to send me. So, I am not able to read anything because digital, digitally reading is very difficult for us and I, I would not speak anything on the financials and all the things only I can say that I am a shareholder of this family since, since long and will remain with this company, but please look into the matters the shareholders are facing problems. Thank you for patience hearing.

Mr. Sushil Kumar Saboo: Thank you Mr. Anil . Now, Mr. Ramsamujh Kori. Now,

Mr. Ramsamujh Kori: Hello? Can you hear me?

Mr. Sushil Kumar Saboo: Yeah, we can hear you. Yeah, we can hear you.

Mr. Ramsamujh Kori: Okay, Good evening, Respected chairman sir and board members. I would like to thank the chairman and board members for handling the company so well. I appreciate your work and I'm not asking any question and supported all the resolution passed by the company. Thank you.

Mr. Sushil Kumar Saboo: Thank you. Mrs. Lekha Satish Shah.

Mrs. Lekha Satish Shah: Hello, Am I audible sir?

Mr. Sushil Kumar Saboo: Yeah, we can hear you.

Mrs. Lekha Satish Shah: Thank you sir.

Respected Chairman sir, Board of Directors, and my fellow members Good evening and regards to everyone, myself Lekha Shah from Mumbai. First of all, I'm very much thankful to our company secretary Raulji for sending the AGM notice well in time which is full of knowledge, facts and figures in place.

Chairman Sir, I would like to ask you questions.

My 1st question is, what is the roadmap for the next two years?

How many woman employees are working in our company?

What is the total number of employees?

So, I hope the company will continue video conferencing meeting in future. So, I strongly and whole -heartedly support all the resolutions for today's meeting. Thank you so much sir.

Mr. Sushil Kumar Saboo: I now request Mr. Krishna Kumar Karwa, Managing Director of the company to answer the queries of the shareholders.

Mr. Krishna Kumar Karwa: Thank you Chairman Sir.

And thank you all shareholders for, joining the AGM and asking very insightful questions. I'll try to answer to the extent of it. So many of you have raised the question about the inability to log in owing to challenges with CDSL. I hear you out and we will reach out to CDSL to ensure that in future you do not have such challenges.

Coming back to some of the questions that I have summarized, some of the questions were on growth plans of the company and some of the questions were there on the employees and cyber security. So, as far as the growth plans of the company are concerned, we have sent a detailed roadmap to you in terms of our various business verticals which is institutional equities, Investment banking, wealth management, investment management, and retail broking. All business verticals, as you see, are growing at a very robust space. We have a team of dedicated team members in every vertical, we are leveraging on technology.

We are trying to basically ensure that our product offerings are as per the requirements of each vertical and yes, this is what we can do. Markets are supportive which will also help in terms of growing our business volume. Looking at the current momentum, we foresee a robust growth for the company in the coming quarters and years. There was a question about the number of employees. I think we have around 510 odd employees. The average age of our employees is around 38 to 39 years and around 30 % of our employees are woman employees. There was a question raised about cybersecurity. We are cognizant and it's very important in today's digital world to have the best of cybersecurity systems and we have currently the best of global partners to ensure that we are able to face any cyber-attacks. And last year we spent almost two crores on cyber security, and I would assure all shareholders that we will take all the efforts to be up to date as far as whatever tools are required to ensure that we are able to save of any cyber-

attacks. There was a question asked about our branches, like all the branches none of the branches are owned by us, all are from leased premises. I think broadly, I have covered as far as there was a question on digital technology, so all our businesses are robust on, they use leverage on technology, whether it is wealth, institutional equities, Investment banking or investment management, all available latest digital tools we are leveraging on that to ensure that our growth is non-linear positive and we do not have to increase our employee strength in the same ratio as our business increases and also to ensure that operational efficiency keep on improving as we grow. I think with that, I would like to, I believe I have answered broadly all the questions and with that we can, I would hand over to the chairman to end the meeting. Thank you very much.

Mr. Sushil Kumar Saboo: Thank you. The proceedings of the Annual General Meeting are now over, and I declare the meeting as concluded.

Thank you.
